Independent Auditor's Report

To the Board of Directors
Masonic Charity Foundation of Oklahoma
Edmond, Oklahoma

Report on the Financial Statements

We have audited the accompanying financial statements of Masonic Charity Foundation of Oklahoma, which comprise the statements of assets and fund balances—modified cash basis as of December 31, 2016 and 2015, and the related statements of support and revenue collected and expenses paid and changes in fund balances—modified cash basis for the years then ended and the related notes to the financial statements (collectively, the financial statements).

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities and fund balances of Masonic Charity Foundation of Oklahoma as of December 31, 2016, and its revenue collected and expenses paid and changes in fund balances for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matter***Summarized Comparative Information***

The prior year's summarized comparative information has been derived from the December 31, 2015 financial statements audited by us and our report was dated September 9, 2016. We expressed an unmodified opinion on those financial statements which were fairly presented, in all material respects, in accordance with the modified cash basis of accounting described in Note 1.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Masonic Charity Foundation of Oklahoma

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies

Organization: The Masonic Charity Foundation of Oklahoma (the Foundation) is a charitable organization established by the Most Worshipful Grand Lodge of Ancient Free and Accepted Masons of the State of Oklahoma (the Grand Lodge) to accept and manage gifts and bequests made to the Foundation for the support of charitable activities of the Foundation conducted throughout Oklahoma. The Foundation's primary source of revenue is bequests and investment earnings.

Basis of accounting: The Foundation maintains its records and prepares its financial statements on the modified cash basis of accounting. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (U.S. GAAP). Accordingly revenues are recognized when received rather than when earned, and grants made and operating expenses are recognized when paid rather than when the obligation is incurred.

The modified cash basis of accounting differs from U.S. GAAP in the following significant respects:

- a) The Foundation's unconditional grants to be paid in future years are recognized when paid rather than when approved by the board of directors;
- b) Accounts receivable, accounts payables, and other accrued expenses, including pension obligations, are not recognized and revenues are recorded when collected rather than when earned, and expenses are recorded when paid rather than when an obligation has been incurred;
- c) No liability is recorded for uncertain tax positions, if any, in accordance with the Financial Accounting Standards Board (FASB) guidance on uncertain tax position.
- d) The investments held by the Foundation are recognized at fair value in the statements of assets and fund balances—modified cash basis with unrealized gain (loss) recognized in the statement of support and revenue collected and expenses paid and changes in fund balances—modified cash basis and the related fair value disclosures are included in Note 2.
- e) In addition, the Foundation is the trustee for a perpetual trust and the beneficiary of one-sixth of the trust income. The Foundation recognizes annual distributions from the trust but does not recognize its beneficial interest in the estimated future cash flows from the trust (see Note 5).

Basis of presentation: The Foundation follows the principles of fund accounting, which reflect limitations or restrictions on the use of available resources by classifying such resources in funds associated with specified activities or objectives. The funds used by the Foundation do not necessarily present its financial information in the same manner as would be presented if the Foundation followed U.S. GAAP for (a) Accounting for contributions received and made and (b) Financial Statements of Not-for-Profit Organizations. U.S. GAAP requires not-for-profit organizations to report their activities and related net assets based on third-party restrictions. The funds used by the Foundation do consider third-party restrictions; however, the Foundation's restricted funds also consider internal restrictions placed on contributions which, under U.S. GAAP, would be considered unrestricted.

The financial statements include certain prior-year summarized comparative information in total, but not by fund classification. Such information does not include sufficient detail to constitute a presentation in conformity with the modified cash basis of accounting. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended December 31, 2015, from which the summarized information was obtained.

The funds used by the Foundation are the Foundation General Fund, Education General Fund, Foundation Endowment Fund and Education Endowment Fund.

Masonic Charity Foundation of Oklahoma

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

The unrestricted funds for the Foundation include the Foundation General Fund and the Education General Fund. These funds are designed to account for resources that are expended for the overall support of the Foundation, which includes the purchases of property and equipment and the support of the Foundation's education and other charitable operations.

The restricted funds for the Foundation include the Foundation Endowment Fund and the Education Endowment Fund. The Foundation Endowment Fund is comprised of resources received by gift, devise, bequest, or otherwise. The bylaws of the Foundation prohibit the expenditure of the Endowment Fund principal. The income earned, including realized and unrealized investment gains, from the restricted investments is included in the Foundation General Fund.

The Education Endowment Fund is comprised of donations that are invested for the education program's use. Income from the investments is transferred to the Education General Fund and is available to pay for awarded scholarships.

In 2006 the Foundation received proceeds from the Edgar M. Woody Trust which are subject to the following restrictions as outlined in a "Journal Entry" filed in the District Court of Oklahoma County:

- The Foundation will hold and administer the Edgar M. Woody funds as segregated restricted funds;
- Beginning in 2006 and continuing each year thereafter, the Foundation will use or distribute, for direct services to the elderly, an amount equal to five percent (5 percent) of the net market value of the Edgar M. Woody Fund as of the preceding year end;
- Distributions by the Foundation from the Edgar M. Woody Fund for direct services to the elderly shall first be made to members of the Masonic family who are fifty-five (55) years of age or older; and
- The Foundation is required to account to the District Court of Oklahoma County, Oklahoma by February 15 of each year, beginning February 15, 2007, for its administration of the Aged Fund, which will be subject to the approval of the Court.

At December 31, 2016, \$2,708,887 of Edgar M. Woody trust funds is included in the Foundation General Fund, which represents cumulative earnings of the Edgar M. Woody Trust in excess of related disbursements. The balance of the Edgar M. Woody Trust, \$12,007,383, represents the corpus balance that is included in the Foundation Endowment Fund.

Cash equivalents: The Foundation considers all highly liquid investments with an original maturity of three months or less when purchased, including cash and money market funds maintained in equity-based investment accounts, to be cash equivalents.

Investments: Investments consist of marketable securities and investment in limited partnership. Substantially all investments are managed by various investment managers and held under a master custodial arrangement. Marketable securities are recognized at fair value.

Marketable securities include equity and fixed income securities. Net realized and unrealized gains (losses) are reflected in the statement of support and revenue collected and expenses paid and changes in fund balance-modified cash basis.

Masonic Charity Foundation of Oklahoma

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

The Foundation has elected to report the fair value of its investment in limited partnership using the practical expedient. The practical expedient allows for the use of net asset value (NAV), either as reported by the investee fund or as adjusted by Foundation management.

Fair value measurements: The Foundation follows guidance issued by the FASB, specifically ASC Topic 820, Fair Value Measurements, which provides the framework for measuring fair value. Fair value measurements accounting guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Quoted prices in active markets for identical assets or liabilities

Level 2: Inputs that are derived principally from or corroborated by observable market data

Level 3: Inputs that are unobservable and significant to the overall fair value measurement

Financial assets carried at fair value on a recurring basis are limited to the Foundation's investments. At December 31, 2016 and 2015, the Foundation has no assets or liabilities carried at fair value on a non-recurring basis or liabilities carried at fair value on a recurring basis.

Concentration of credit risk: The Foundation maintains cash in bank deposit accounts that, at times, may exceed federally insured limits. The Foundation has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on cash or cash equivalents.

Property and equipment: Expenditures for property and equipment that exceed the Foundation's capitalization policy threshold of \$5,000 are capitalized at cost and are depreciated on the straight-line basis over their estimated useful lives as follows:

Vehicles	5 years
Buildings and improvements	10-40 years
Office furniture and equipment	5-10 years

When assets are sold or retired, the costs of the assets and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is included in operations.

Contributed noncash assets: Royalty mineral rights interests, real estate, noncash bequests and life insurance policies are recorded at a nominal value of \$1 when received. Revenue is recognized when cash is received upon the sale or realization of such assets.

The Foundation's policy is not to sell its royalty mineral rights interests. No provision is made for depletion of mineral properties, and no asset is recognized for mineral reserves.

Masonic Charity Foundation of Oklahoma

Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

Income taxes: The Foundation was formed exclusively for charitable purposes as defined by Section 501(c)(3) of the Internal Revenue Code of 1986. As a not-for-profit organization, the Foundation is not subject to income taxes on normal operations. It is management's belief that the Foundation continues to qualify as a not-for-profit organization. During 2010, the Foundation lost its public charity status, as it failed the facts and circumstances test required by the Internal Revenue Code. As a result, the Foundation is now subject to a 1 percent or 2 percent excise tax on net investment income. In addition, a 30 percent excise tax is imposed on the Foundation if it fails to distribute significantly all of its minimum investment return to qualified beneficiaries before the end of the next tax year and a 100 percent tax if it fails to distribute its minimum investment return before the end of the second tax year. The 100 percent tax is not payable until ninety days after it is assessed by the Internal Revenue Service. If the Foundation distributes the accumulated income within ninety days after the 100 percent penalty is assessed, the penalty will be waived. During 2016, the Foundation paid \$26,320 of excise tax to the Internal Revenue Service.

Management has evaluated the Foundation's tax positions and concluded that the Foundation has taken no uncertain tax positions that require disclosure in the financial statements. Currently, the Foundation is not subject to examination by any major tax jurisdictions.

Use of estimates: The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts and disclosures; accordingly, actual results could differ from those estimates.

Significant estimates: Estimates that are particularly susceptible to significant change include the valuation of investments in marketable and non-marketable. The Foundation's various investment securities are exposed to various risk, such as interest rate, market and credit risk. Such credit risk is considered by management to be limited due to the financial stability of the institutions managing the funds, and the dispersion both in geography and industry of the investments. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in value of investment securities will occur in the near term and in such amounts that could be material.

Subsequent events: Management has evaluated subsequent events through October 18, 2017, the date the financial statements were available to be issued. There were no subsequent events requiring recognition or disclosure.

Note 2. Investments and Fair Value Measurements

As described in Note 1, the Foundation reports fair value in marketable securities at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The methods and assumptions used to estimate the fair value of assets in the financial statements, including a description of the methodologies used for classification within the fair value hierarchy, are as follows:

Masonic Charity Foundation of Oklahoma

Notes to Financial Statements

Note 2. Investments and Fair Value Measurements (Continued)

Marketable securities: Quoted prices for equity securities are obtained from active markets such as the NYSE or NASDAQ, and as a result, equity securities are classified within Level 1 of the hierarchy. Fixed income securities including corporate bonds, U.S. government obligations, and certificates of deposit are classified within Level 2 of the hierarchy due to their proprietary nature. The fair values of these securities are based on bid prices published in financial newspapers or bid quotations received from securities dealers. The fair value of certain securities are not readily available through market sources other than dealer quotations, so fair value estimates are based on quoted market prices of similar instruments, adjusted for the differences between the quoted instruments and the instruments being valued. Maturity dates of U.S. government securities and corporate bonds range from 2022 to 2046.

Investment in limited partnership: This investment is carried at fair value which is based on the NAV per share as provided by the fund manager and/or adjusted by the Foundation. The Foundation uses the management agreement, audited financial statements and underlying investment holdings to evaluate the fund manager's valuation methodology and determine if any adjustment to the NAV is necessary.

Assets measured at fair value on a recurring basis at December 31, 2016, are classified within the fair value hierarchy as follows:

	As of December 31, 2016			
	Total	Level 1	Level 2	Level 3
Assets held at fair value:				
Marketable securities:				
Equity securities:				
Materials	\$ 1,094,870	\$ 1,094,870	\$ -	\$ -
Industrials	2,636,414	2,636,414	-	-
Telecommunication	365,674	365,674	-	-
Consumer discretion	2,025,170	2,025,170	-	-
Consumer staples	1,528,430	1,528,430	-	-
Energy	2,039,177	2,039,177	-	-
Financials	4,285,739	4,285,739	-	-
Healthcare	1,896,742	1,896,742	-	-
Information technology	4,107,748	4,107,748	-	-
Utilities	75,414	75,414	-	-
International equity fund	125,524	125,524	-	-
Open end mutual fund	21,249,723	21,249,723	-	-
Fixed income:				
Corporate bonds	7,302	-	7,302	-
U.S. government obligations	30,786,993	-	30,786,993	-
Certificates of deposit	284,486	-	284,486	-
Total marketable securities	85,351,230	54,272,449	31,078,781	-
Investment in limited partnership measured at net asset value (NAV) (a)	4,358,791	-	-	-
Total investments	\$ 89,710,021	\$ 54,272,449	\$ 31,078,781	\$ -

Masonic Charity Foundation of Oklahoma

Notes to Financial Statements

Note 2. Investments and Fair Value Measurements (Continued)

- (a) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of assets and fund balances—modified cash basis.

The Foundation's investment in limited partnership which is presented at NAV per share is fully invested in a single fund which invests in entities established to act as real estate investment vehicles. The Foundation has the ability to redeem its investment at NAV with written notice 30 days prior to the last business day of each quarter. As of December 31, 2016, the Foundation has no unfunded commitments related to its investment in the limited partnership.

Note 3. Property and Equipment

Property and equipment at December 31, 2016, are summarized as follows:

Land	\$ 147,457
Building	374,709
Parking lot	25,319
Automobiles	38,781
Furniture, fixtures and equipment	50,560
	<hr/>
	636,826
Less accumulated depreciation	331,379
	<hr/>
	<u>\$ 305,447</u>

Note 4. Pension Plan

On January 1, 1984, the Foundation adopted a defined benefit pension plan (the Plan), which covers all employees who have attained the age of 21 and completed 12 months of service. Effective January 1, 2012, the Plan was amended. The information included in hereafter describes the benefits based on the January 1, 2012, amended plan documents. Benefits under the Plan will accrue in an amount equal to 2.0 percent of the employee's average annual compensation for each year of credited service up to a maximum of 40 years. Benefits under the Plan vest 100 percent after five years of service.

As discussed in Note 1, the Foundation prepares its financial statements on a modified cash basis. The Foundation does not report a pension obligation or asset. Pension expense is based on amounts contributed to the Plan rather than on the actuarially determined amount based on services performed.

The summary plan information presented below was calculated utilizing the unit benefit nonintegrated method of actuarial valuation. The actuarial present value of the projected benefits to participants of the Plan includes one employee who retired prior to adoption of the Plan.

Masonic Charity Foundation of Oklahoma

Notes to Financial Statements

Note 4. Pension Plan (Continued)

The projected benefit obligation and net assets available for those benefits as of the latest actuarial valuation date of December 31, 2016, are as follows:

Actuarial present value of projected plan benefits:

Accumulated (earned) benefits	\$ 2,922,961
Expected benefits subject to future services	244,186
	<u>\$ 3,167,147</u>

Total plan assets	<u>\$ 2,698,249</u>
-------------------	---------------------

As of December 31, 2016, the Plan's assets available for plan benefits were less than the accumulated (i.e., earned) plan benefits by \$224,712. The Plan's assets are invested in cash—\$147,717, government securities—\$1,033,389 and mutual funds—\$1,517,143. Unfunded benefits, including expected benefits subject to future services, will be funded by the Foundation based on required minimum funding outlined in the Pension Protection Act of 2006. For 2016, a minimum contribution of \$127,034 has been required if made no later than December 31, 2017. It is the intention of the Foundation to make the required contribution during 2017.

In determining the actuarially present value of the projected plan benefits, the following assumptions were used: (a) weighted-average discount rate of 5.82 percent and (b) rate of increase in future compensation levels of 0 percent.

During the 2016 Plan year, the Foundation made \$148,970 contributions to the Plan. Benefits paid, administrative-related expenses, and professional fees and commissions were approximately \$173,000, \$9,000, and \$8,000 for 2016, respectively.

Note 5. Perpetual Trust

Effective January 1, 2016 the Foundation was appointed as Successor Trustee of the Floyd Throckmorton Testamentary Charitable Trust (the Floyd Throckmorton Trust) as decreed by the District Court of Kingfisher County. The Foundation received and manages the investments of the assets of the trust and is also named as a beneficiary to receive a one-sixth income interest in the Floyd Throckmorton Trust.

The trust funds are subject to the following restrictions as outlined in the Last Will and Testament of Floyd Throckmorton and subsequent related court orders:

- The Foundation will pool the assets of the Floyd Throckmorton Trust with the other assets of the Foundation as segregated restricted funds;
- On an annual basis the Foundation will distribute to the named beneficiaries a combined aggregate amount equal to 4 percent of the net market value of the Floyd Throckmorton Trust as of the preceding year end, unless the Court shall order that the Trustee only be required to distribute an amount equal to all dividends, interest, royalties, bonuses and other income received during the preceding year, less expenses of administration, of the Floyd Throckmorton Trust by application of the majority of the beneficiaries.

Masonic Charity Foundation of Oklahoma

Notes to Financial Statements

Note 5. Perpetual Trust (Continued)

At December 31, 2016 the fair value of Floyd Throckmorton Trust assets held by the Foundation, including those held for the benefit of others totaled \$699,329. The fair value at the time the assets were transferred to the Foundation was \$539,904 and the change in fair value from the time of transfer until year end was \$159,425. At December 31, 2016 the Foundation's beneficial interest (one-sixth) in the Floyd Throckmorton Trust totaled \$116,555. As discussed in Note 1, the Foundation recognizes distributions from the trust when received but does not recognize its beneficial interest in the trust's future cash flows.

Note 6. Commitments

Effective June 30, 2008, the Foundation entered into an employment agreement with an officer of the Foundation. The agreement stipulates an annual base salary, which may be adjusted annually for (a) cost of living adjustments based on Bureau of Labor Statistics Southwest Statistical Summary Consumer Price Index for All Urban Consumers and (b) annual evaluation based on performance at the board of directors' discretion. The board of directors approved an amendment to the agreement in September 2015 with an effective date of January 1, 2016. The remaining commitment under the term of this amended agreement is approximately \$420,000 as of December 31, 2016.
